

This line is annoying me!

“If those things were true [911 was an inside job], it would be all over the news with investigations.”

Bill O'Reilly, The “No” Spin Zone, FOX,
in an interview with Jim Fetzer on 2006-12-20

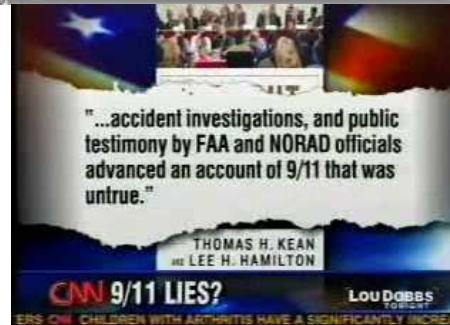

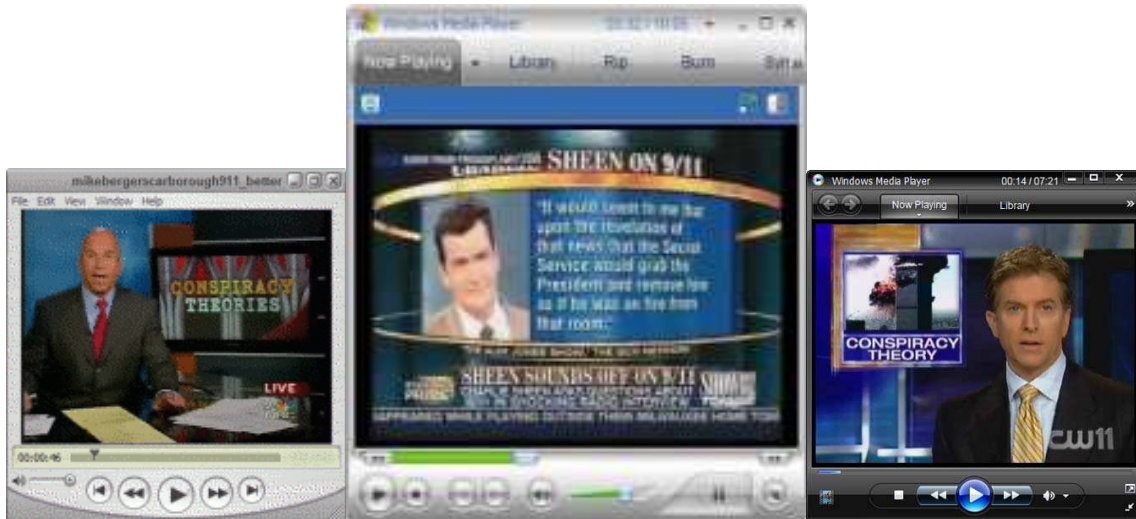

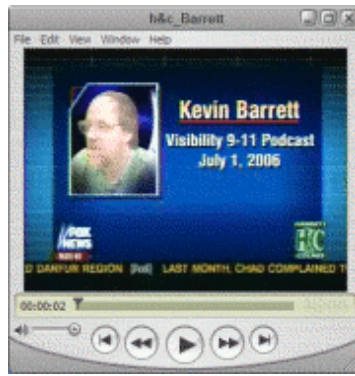

Dear Bill!

Your basic assumption is false.

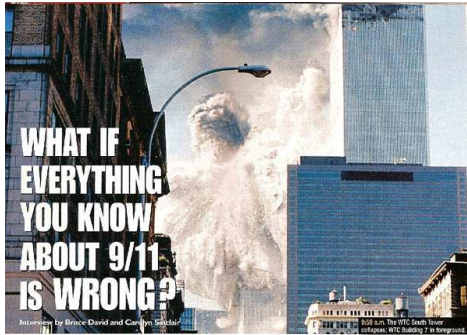

- There's no independent media any more. All are tied together and belong into very few hands.
- The media is complicit, as it has reported the government version as the basic truth without questioning.
- There is no severe need for control, as journalists know what they can report on and what not.
- The behaviour of guys like you who only engage in namecalling for all doubters leads to a climate of fear and suppression.
- All the million of pieces that did not fit to the official version were ignored or dismissed by most of the media.
- There are, nonetheless, millions of media pieces who do in fact suggest that 911 was an inside job.

You only have to dive beyond the surface of the overwhelming inflood of the Mainstreammedia.

WHAT IF EVERYTHING YOU KNOW ABOUT 9/11 IS WRONG?
Interviews by Bruce David and Carolyn Sigurd

What do we know about what happened on September 11, 2001—Osama bin Laden inspired 19 Muslim extremists to hijack commercial airplanes and fly them into the World Trade Center and Pentagon. But what if it didn't happen that way at all?

David Ray Griffin is a professor of theology, a self-proclaimed scholar and author of more than 20 books, including *The 9/11 Commission Report: Questions and Answers* and *The New Pearl Harbor: Debating Questions about the Bush Administration and 9/11*. Griffin maintains that the evidence contradicts the government's official story and that, so far, nobody's come up with a theory that can account for all of the facts.

DAVID RAY GRIFFIN: I single-gather research that has been done by others, a lot of it based on mainline stories from *The New York Times*, *The Boston Globe* and *The Guardian* and so on. These reports tend to, more or less, contradict the official theory.

You say there's reason to question the government's official position on Osama bin Laden.

One problem with the official theory of the attacks being pulled off covertly by the 19 was named in all Qaeda sources is that six of them have, subsequently, shown up very much alive. This has been reported in the BBC, but not in the American mainstream press. One guy even walked into the U.S. Embassy and asked what was his name about his having died on 9/11?

At HUSTLER we believe the murder of 2,886 innocent people demands hard questions and digging deeper. We're especially troubled by the collapse of Building 7, but we've decided to keep an open mind. As such, we're not down with Griffin's contention that there appear to be deflating inconsistencies with the government's story.

HUSTLER: You've compiled a record of the facts—but are they beyond dispute?

What are some other problems with the official story?
The government had every reason to know who was going to happen. There were some 52 warnings of the attack, many of which the Bush Administration didn't see fit to have released until after the inauguration. A table list came out during the 9/11 hearings. For example Condoleezza Rice—who had been lobbying the Times August 5, 2001, memo from from British intelligence an overly-laxness in its routine—was forced to admit that

TEA PARTY FOR TRUTH

ESSA/MASS MEDIA/STAFF

Members of the 9/11 Truth Committee reenacted the Boston Tea Party on its 23rd anniversary yesterday by throwing boxes representing the 9/11 Commission Report from the Monkey Bridge over Fort Point Channel near Boston Harbor. The committee, which called its event the "9/11 Truth Tea Party," rejects the findings of the 9/11 Commission. The Boston Tea Party, a protest against British taxes, was held Dec. 16, 1773, at a site not far from yesterday's event.

The 75 professors who believe 9/11 was an inside job

By Joyce Marshall

SEVENTY-FIVE leading academics have launched a petition demanding a re-examination of the 9/11 attacks. The petition is headed by professors inside the White House.

The professors want evidence to be made available to the public. They want to know who was involved in the attacks and how they were carried out. They want to know who was involved in the attacks and how they were carried out. They want to know who was involved in the attacks and how they were carried out.

BOMBER'S BREAK FOR FREEDOM

A British scholar has written a book that claims to reveal the truth about the 9/11 attacks. The book is titled 'The 9/11 Bomber's Break for Freedom' and is written by David Ray Griffin. The book claims that the 9/11 attacks were an inside job and that the government is covering up the truth.
